GLOSSARY OF INGREDIENTS

CBD

CBD (CANNABIDIOL) is a natural ingredient with powerful benefits for all skin types. This phytochemical derived from the industrial hemp plant include antioxidants and anti-inflammatory effect with strong protecting and balancing properties in topical application for skin. CBD is a fighter in a daily routine against acnes, dry skin and aging of your face and body. This green molecule gives the skin vitality and energy on a daily basis.

SHEA BUTTER

SHEA BUTTER is known to be a “skin superfood” that nourishes and hydrates the skin. It contains large amounts of unsaturated fatty acids, vitamins A and E, and a high content of proteins and minerals. Shea butter also helps stimulate the production of collagen in the skin and smooth wrinkles. It is ideal for dry, sensitive and irritated skin.

JOJOBA OIL

JOJOBA OIL closely mimics the skin's own sebum, making it an effective natural skin moisturiser. It is rich in amino acids, which are the building blocks of collagen, what influences greatly the reduction in the appearance of fine lines and wrinkles, and improvements in skin texture, tone, and elasticity. Jojoba oil has antimicrobial properties that make it an excellent choice for acne-prone skin.

VITAMIN E

VITAMIN E is a powerful antioxidant and it is found naturally in our bodies and in certain foods. This wonderful vitamin helps prevent damage and premature ageing induced by free radicals, soothe and calm the skin and keep it hydrated.

ALOE VERA

ALOE VERA is packed with antioxidants, enzymes, vitamins A and C. It perfectly moisturises the skin and keeps it hydrated and soft. Due to its antimicrobial and anti-inflammatory properties Aloe Vera helps fight acne breakouts, blackheads and whiteheads.

MSM

MSM, a miraculous ingredient, also known as a “beauty mineral”, enhances skin's natural collagen production thus helping reduce signs of ageing - fine lines and wrinkles. Also, MSM helps heal scars, acne and blemishes. MSM in daily skincare routine helps maintain and improve skin's overall health and texture.

ARNICA MONTANA FLOWER EXTRACT

ARNICA MONTANA FLOWER EXTRACT has been used as an herbal medicine for centuries known for its antimicrobial and anti-inflammatory properties. It helps speed up wound healing, soothe and renew the skin.

GLYCERIN

GLYCERIN is one of the most effective moisturisers as it attracts moisture to the upper layer of the skin where it is applied. It is extremely gentle on the skin, making it feel soft and supple.

PANTHENOL

PANTHENOL, also known as pro-vitamin B5, hydrates the skin and helps it reduce the risk of dehydration and dryness. Also, it helps to protect the skin and reduce itchiness and irritation caused by external aggression.

OLIVE OIL

OLIVE OIL is rich in lipids, fatty acids, oleic acid, squalene and vitamins A, D, E, and K. It is packed with antioxidant properties that help protect skin cells against environmental damage and inflammation. The antibacterial properties in the olive oil can be beneficial in the treatment of skin infections.

SUNFLOWER OIL

SUNFLOWER OIL is a non-comedogenic and can be used on all types of skin, including dry, normal, oily, and acne-prone. It is rich in vitamin E is an antioxidant that help in preventing premature signs of aging. It helps to replenish, soothe, and restore the skin.

ALMOND OIL

ALMOND OIL is a rich source of skin-replenishing ingredients like vitamins A and E, potassium, and zinc. It provides hydration, soothes and smooths the skin. Since it is highly emollient, almond oil helps soothe skin conditions like dermatitis, eczema, and psoriasis.

ALLANTOIN

ALLANTOIN helps moisturise, soothe itchiness, and heal injured skin. It is a non-irritating ingredient that helps soothe, calm and protect the skin. In addition, allantoin is packed with moisturising, nourishing and smoothing properties.

GLOSSARY OF INGREDIENTS

MENTHOL

MENTHOL produces a cooling sensation and pain-killing effect. It blocks the calcium current along the nerves responsible for detecting temperature, sending the message that the body or skin is cooling. Menthol has itch-reducing, antibacterial, antifungal, and penetration-enhancing properties. After causing the skin to feel cool, menthol then causes it to feel warm, presenting a distraction from the pains deeper in the muscles and joints.

ROSEMARY ESSENTIAL OIL

ROSEMARY ESSENTIAL OIL consists of α -Pinene, Camphor, 1,8-Cineol, Camphene, Limonene, and Linalool. It has antiseptic, anti-microbial, anti-inflammatory, and anti-oxidant properties. It helps circulation, stimulates hair growth, repels insects, reduces pain and joint inflammation, eases stress, energizes and improves memory.

CAMPHOR

CAMPHOR has antibacterial and antifungal properties. It increases blood flow and improves the overall appearance of the skin. It helps get rid of pigmentation, dark spots and scars, resulting in fair and glowing skin. It is widely used for pimples and is effective in treating skin irritation and ultraviolet light-induced wrinkles.

BOSWELLIA SERRATA ESSENTIAL OIL

BOSWELLIA SERRATA ESSENTIAL OIL contains Limonene, Pinene, Borneol, Farnesol, Phellandrene, and Myrcene. It brings down the appearance of wrinkles and skin imperfections, stimulates the growth of new cells, blood flow and circulation. It soothes the irritated skin and reduces redness, swelling, and itching. It helps disinfect and tighten the pores, promoting the speedy healing of cuts, wounds, and scars.

EUCALYPTUS GLOBULUS ESSENTIAL OIL

EUCALYPTUS GLOBULUS ESSENTIAL OIL contains the naturally occurring component eucalyptol, which provides a refreshing sensation on the skin and creates an energizing breathing experience. It has anti-inflammatory, antiseptic, antiviral and antibacterial properties. It reduces inflammation and irritation of the skin and heals wounds from acne, psoriasis, or eczema. It eases muscular pain and arthritis.

PEPPERMINT ESSENTIAL OIL

PEPPERMINT ESSENTIAL OIL closes pores and tightens the skin. Its most active components Menthol and Menthone are known to reduce pain and invigorate, energize, and prevent the growth of harmful bacteria. It has cooling and warming sensations, making it an effective anesthetic that leaves the skin numb to pain and calms redness and inflammation. It promotes the safe and healthy renewal of the skin, offering relief from skin irritations such as sunburn. It stimulates the scalp and removes dandruff.

CITRONELLA CEYLON ESSENTIAL OIL

CITRONELLA CEYLON ESSENTIAL OIL is a traditionally popular insect repellent. Consisting of Geraniol, Camphene, Limonene, Methyl isoeugenol, Geranyl acetate, Borneol, Citronellal, and Citronellol, it has antifungal, antibacterial, and antiseptic properties. It prevents excessive sweating and superfluous production of oil in hair and skin, reduces muscle spasms, rashes, and inflammation, and promotes skin barrier regeneration.

GLUCOSAMINE

GLUCOSAMINE is an amino sugar found in the body, where it makes other chemicals that build tendons, ligaments, cartilage, and the fluid surrounding joints. Glucosamine hydrochloride (Glucosamine HCl) is one of several forms of glucosamine. Short-term use of Glucosamine HCl reduces osteoarthritis symptoms. It is beneficial for joint pain, rheumatoid arthritis, back pain, weight loss, and multiple sclerosis.

PINE ESSENTIAL OIL

PINE ESSENTIAL OIL soothes itchiness, inflammation, and dryness of the skin. It controls excessive perspiration, prevents fungal infections, protects minor abrasions from developing infections, slows the appearance of signs of aging, and enhances circulation. Pine Essential Oil eases the symptoms of acne, eczema, and rosacea, and alleviates ache from arthritis and muscle pain. It is good for treating hair loss and thinning hair.

METHYL SALICYLATE

METHYL SALICYLATE is a benzoate ester that is the methyl ester of salicylic acid. It treats minor aches and pains of the muscles or joints, such as arthritis, backache, and sprains. Menthol and methyl salicylate cause the skin to feel cool and then warm. These feelings on the skin present a distraction from the feeling of pain deeper in the muscles and joints.

CINNAMON BARK ESSENTIAL OIL

CINNAMON BARK ESSENTIAL OIL has antibacterial and antifungal properties. It soothes the skin, cleanses and tones it. It exhibits skin lighting properties, heals the skin, and helps clear away scar marks and spots. It is beneficial for inflammatory skin conditions like rashes and acne, reducing puffiness and redness. It cleanses the scalp and promotes stronger, thicker looking hair.

CAPSICUM FRUTESCENS (CAYENNE PEPPER) EXTRACT

CAPSICUM FRUTESCENS (CAYENNE PEPPER) EXTRACT is rich in bioactive compounds capsaicin and luteolin and contains vitamins A, C, E, and B complex vitamins, beta carotene, calcium, and potassium. Capsaicin is known for its effect on warming and relaxing tension in muscles. It helps in the treatment of arthritic pain and postherpetic pain caused by herpes zoster. It enhances circulation, skin tone, and firmness. It promotes regeneration and helps hair growth.

BENEFITS OF CBD FOR SKIN

Cannabidiol (CBD) shows numerous skin health benefits. By regulating 163 genes in the skin, it acts as a natural hydrator, restores its damaged barrier, improves tone, restores skin elasticity and prevents premature aging. It provides natural protection against UV radiation and affects the production of melanin and pigmentation.

Studies show the effectiveness of CBD in treating acne, atopic dermatitis, eczema and psoriasis. CBD acts on the secretion of sebum, reduces itching and irritation and alleviates the psychosocial problems of patients. It helps with injuries, accelerates wound healing, and shows effectiveness in closing wounds that do not heal, as in cases of venous ulcer complications.

CBD is known for its antioxidant and anti-inflammatory properties, making it effective in treating a range of diseases and its transdermal application facilitates the intake with diseases that require the use of anti-inflammatory drugs, such as rheumatoid arthritis.

CBD has a beneficial effect on restoring and stimulating hair growth, nourishes and stabilizes the scalp, reduces itching, hydrates hair and scalp, prevents hair from drying out and splitting ends, regenerates hair and restores shine.
